

PAGOS
DEL REY

Winery in Rueda

Félix Solís Avantis purchased the winery known as Castillo Mudéjar S.L. in 2005 when it was just one-year-old. The first harvest took place in 2005.

This winery is characterised by its Mudejar style brickwork together with the olive tree garden and the sculptures of a musician and his muse. Furthermore, the façade's bright orange colour never fails to impress visitors.

At present, Pagos del Rey is one of the three most important wineries in Rueda.

Pagos del Rey Rueda winery has been totally modernised and equipped with all the latest technologies. Along with the bottling plant it also boasts a large air conditioned storage warehouse.
