Varietal Wine

Consigna Merlot

Merlot is one of the most important grape varieties grown in Castilla-La Mancha since it is well adapted to its climate.

Region

The largest vineyard in the world is located on the central plateau of the Iberian Peninsula. Varietal wines are made with one type of grape. Airen and Tempranillo are the most characteristic grapes from this area, while other non-native grape varieties such as Cabernet Sauvignon, Syrah, Merlot, Viura, Sauvignon Blanc and Chardonnay have excellent results due to the climate and terrain in this region.

Technical Information

The ripening process of the grapes is strictly controlled while on the fields to determine the optimum harvesting moment that yields grapes with a perfect balance of sugar content and acidity. Then, the grapes undergo a cold maceration period for 3 or 4 days. Fermentation takes place in temperature controlled stainless steel tanks for up to 8 days never over 25°C. The result is an elegant, well-structured wine that is designed to be consumed young.
