

Varietal Wine

Orquesta Garnacha Rosé

Garnacha grapes reach their perfect ripeness level thanks to the essential heat of the day and the low night temperatures. This rosé is created using the traditional methods in this region.

Region

The largest vineyard in the world is located on the central plateau of the Iberian Peninsula. Varietal wines are made with one type of grape. Airen and Tempranillo are the most characteristic grapes from this area, while other non-native grape varieties such as Cabernet Sauvignon, Syrah, Merlot, Viura, Sauvignon Blanc and Chardonnay have excellent results due to the climate and terrain in this region.

Technical Information

Harvesting starts after a strict control of the ripening process to obtain the right balance of sugar, acidity and phenolic maturity. The traditional rosé methods are employed to make sure the wine acquires its characteristic shade. First, the must undergoes cold maceration for 8 to 10 hours. This period allows for the characteristic rosé colour to be transferred. Then, fermentation takes place at 16-18 ° C for up to 10-days, resulting in a light, clean and fruity wine.
