

Peñasol Tempranillo Garnacha

Varietal Wine

Peñasol Tempranillo Garnacha

Tempranillo and Garnacha grapes mature to their best under the sun and the chilly nights in “Valley of the Rocks” (Valle de las Peñas).

Region

The largest vineyard in the world is located on the central plateau of the Iberian Peninsula. Varietal wines are made with one type of grape. Airen and Tempranillo are the most characteristic grapes from this area, while other non-native grape varieties such as Cabernet Sauvignon, Syrah, Merlot, Viura, Sauvignon Blanc and Chardonnay have excellent results due to the climate and terrain in this region.

Technical Information

The ripening process of the grapes is strictly controlled while on the fields to determine the optimum harvesting moment that yields grapes with a perfect balance of sugar content and acidity. Then, the grapes undergo a cold maceration period of 3 – 4 days. Fermentation takes place at a controlled temperature in stainless steel tanks that never rises above 22-24°C for 10 days to achieve the perfect balance between tannins and fruit.
