Bold, untamed and irresistible.

Region

The largest vineyard in the world is located on the central plateau of the Iberian Peninsula. Varietal wines are made with one type of grape. Airen and Tempranillo are the most characteristic grapes from this area, while other non-native grape varieties such as Cabernet Sauvignon, Syrah, Merlot, Viura, Sauvignon Blanc and Chardonnay have excellent results due to the climate and terrain in this region.

Technical Information

Made exclusively from Garnacha grapes sourced from vineyards in central Spain. Following a pre-fermentation maceration lasting several hours to enhance the wine's aromatic expression, fermentation takes place at a controlled temperature with the aim of preserving the variety's fruity character and achieving adequate extraction of colour and tannins. The wine is then aged briefly on its lees and undergoes a period of refinement before bottling, resulting in a well-balanced wine with predominant notes of ripe red fruit, good structure and a smooth, elegant finish.
