

D.O. La Mancha Caliza Merlot Syrah Tempranillo

“Caliza” is Spanish for limestone and this wine’s label is a faithful resemblance of the characteristic soil in this region. We have embraced the full potential of the Merlot, Syrah and our traditional Tempranillo to create this coupage that brings pleasure to the three senses – sight, smell and taste. This is a perfect wine to enjoy with a wide range of Spanish gastronomic concepts.

Region

In the former kingdom of Castilla-La Mancha in central Spain, we can find the largest vine-growing area in the world with an endless expanse of 300,000 hectares of vineyard. It is also the stomping ground of Miguel de Cervantes’s famous novel, Don Quixote. The huge area covered by this Denominación de Origen borders Valencia and Murcia to the East, and Extremadura to the West, Andalusia to the South and Madrid to the North-West. Wine making began here in Roman times and was widespread during the middle ages. The versatility of this land has allowed for the introduction of a wide variety of international varieties of grape.

Tasting Notes

Deep red in colour. Rich aroma of red berries. Complex and delicious on the palate with a hint of pepper, mocha and spices. Warm and balanced with a delightful aftertaste.

Food Pairing

Perfect with red meat, pasta, burgers and mature cheese.

Technical Information

The grapes are carefully selected and handpicked and fermented separately at a controlled temperature (22-24 °C) to ensure the optimum aromatic potential in order to preserve the original aromas and flavours. The assemblage of the wines is essential to produce a wine of excellent quality that retains the characteristics of the terroir.

Tasting Notes

A bright yellow wine with green hues. Wonderful fresh aromas of herbs, apple, peach and tropical fruit. An elegant wine with a lovely long silky finish.

Food Pairing

Perfect with tapas and a range of Spanish seafood dishes, including fish with butter sauce, scallops, or try with pasta and cheese.

Technical Information

Grapes are harvested at night in late September and early October. This cooler temperature allows the grapes to retain their wonderful aromatic characters. After crushing, the must is left for maceration for 6 to 8 hours in cool temperatures to get the maximum expression of aromas. The fermentation of each variety is carried out at a controlled temperature in stainless steel tanks at 14-16 °C in order to achieve maximum expression of flavourings. The result is a fresh and delicate wine.

D.O. La Mancha Caliza Rosé

“Caliza” is Spanish for limestone and this wine’s label is a faithful resemblance of the characteristic soil in this region. We have captured the maximum expression of Tempranillo grapes to create this fruity Rosé wine that displays the structure of a good red wine.

Tasting Notes

With its characteristic rosé colour, this is a wine that is light, clean, fresh, and fruity. It maintains its original aroma of strawberries and fresh red fruits on the nose. On the palate it is well-balanced, refreshing and has a clean and persistent finish.

Food Pairing

A perfect wine for barbecues or picnics, and particularly with seafood starters.

Technical Information

Only the best grapes are picked for this wine, which is then elaborated with traditional methods. Prior to fermentation, its grapes undergo a controlled maceration period. Fermentation takes place at controlled temperature between 14 and 16° C.

D.O. La Mancha Caliza Gran Selección

Caliza Gran Selección is made from Tempranillo grapes selected from vineyards with a maximum production of 4,000 Kilograms per hectare. The grapes are harvested by hand so that each one of the clusters reaches our winery in excellent condition.

Tasting Notes

Bright cherry colour with purple hues; a characteristic of young wines. This wine has aromas of red berries and violets. On the palate there are flavours of concentrated black berries, along with a generous texture and integrated tannins.

Food Pairing

It is a perfect wine to go with all types of meat, poultry, pâté or cured cheese.

Technical Information

A more intense maceration than the usual one for young wines, but also a delicate process that aims to obtain the sweet tannins with character as well as the floral aromas of red fruits that characterise Tempranillo grapes. Fermentation then takes place between 22 and 25 °C.

Once the alcoholic fermentation is over malolactic fermentation also takes place to soften tannins in order to increase the sensation of volume and sweet tannins.
