

Winery in Valdepeñas

D.O. Valdepeñas / Other / Varietal Wine / Vino de la Tierra de Castilla

The winery

Our Félix Solís SL winery was founded in April **1975** – along the current national road linking Madrid to Cadiz. The winery, is one of **the biggest family-owned winery's in the world** with numerous advantages brought about by economies of scale. The modern winery has streamlined production facilities and state of the art warehousing all on site. It also holds the **main central offices and logistics** facilities of the group Félix Solís avantis.

In addition to its large catalogue of D.O. **Valdepeñas** wines, Félix Solís, S.L. also offers wines under the classifications of Vinos de Tierra de Castilla (country wines from Castilla), table wines, mostos (must or grape juice), and sangrias.

We combine **traditional methods of vine cultivation** with **modern winemaking** via our experienced winemakers. The Solís family owns (400 hectares) and works in partnership with 5.000 family-owned vine growers.

From vine to bottle, this winery has the best equipment to ensure quality control at every stage.

The harvest takes place the **second fortnight of August** – starting with white grapes – until the beginning of October. The careful **selection of the grape**, even before they are picked, is the key to a successful harvest and top-quality wines. The rest is the hands of our experts who use state-of-the-art technologies in oenology. Each and every process is subjected to **rigorous control**.
