Technical Information

This wine is made from Garnacha and Tempranillo grape varieties. These are carefully monitored to ensure perfect maturity while limiting the concentration of anthocyanins in order to obtain a pale coloured Rosé. This also allows for juices with good acidity and freshness, perfect for this wine style. Each variety is treated separately, with a limited maceration of just 2-3 hours, followed by very soft pressing and static draining to obtain very clean musts. The fermentations take place at very low temperatures, similar to white wines, at around 12-14°C, with extended lees contact for 3-4 months before assembly and bottling.
